

Greeting Honorable Members of Althingi,  
Ministries and Committee Members,

I write today to express my support ,(as a citizen and landowner in Iceland), of establishing a framework for the legal use and cultivation of various cannabis products. I believe this is an excellent opportunity to advance medical knowledge of this plant and provide relief to many of today's ailments.

I hope to assemble an informative pak of information for Althingi staff and members to reference . I would hope the committee that is formed to advise the Althingi , uses the various sources of information that is available, to form its framework protocols.

I offer you my services and opinions.

Takk

Bless Bless

Georg Bjarni Bernard
