Agreement between the European Union and the on the protection of geographical indications of agricultural products and foodstuffs

THE EUROPEAN UNION,

of the one part,

and

ICELAND

of the other part,

hereinafter referred to as the 'Parties',

CONSIDERING that the Parties agree to promote between them a harmonious development of the geographical indications as defined in Article 22(1) of the Agreement on Trade-Related Aspects of Intellectual Property Rights (TRIPS), and to foster the trade of the agricultural products and foodstuff originating in the territories of the Parties,

CONSIDERING that the Agreement on the European Economic Area provides for the mutual recognition and protection of geographical indications of wines, aromatised wine products and spirit drinks,

HAVE AGREED AS FOLLOWS:

Article 1

Scope

1. This Agreement applies to the recognition and protection of geographical indications of agricultural products and foodstuffs other than wines, aromatised wine products and spirit drinks originating in the territories of the Parties.
2. Geographical indications of a Party shall be protected by the other Party under this Agreement only if covered by the scope of the legislation referred to in Article 2.

Article 2

Established Geographical Indications

1. Having examined the legislation of Iceland listed in Part A of Annex I, the European Union concludes that that legislation meets the elements laid down in Part B of Annex I.
2. Having examined the legislation of the European Union listed in Part A of Annex I, Iceland concludes that that legislation meets the elements laid down in Part B of Annex I.

3. Iceland, after having completed an objection procedure, in accordance with Part C of Annex I, and after having examined the geographical indications for agricultural products and foodstuffs of the European Union listed in Annex II which have been registered by the European Union under the legislation referred to in paragraph 2, shall protect those geographical indications according to the level of protection laid down in this Agreement.

4. The European Union, after having completed an objection procedure, in accordance with Part C of Annex I, and after having examined the geographical indications for agricultural products and foodstuffs of Iceland listed in Annex II which have been registered by Iceland under the legislation referred to in paragraph 1, shall protect those geographical indications according to the level of protection laid down in this Agreement.

Article 3

Addition of new geographical indications

1. The Parties agree on the possibility to add new geographical indications to be protected in Annex II in accordance with Article 10(3) after having completed the objection procedure, in accordance with Part C of Annex I, and after having examined the geographical indications as referred to in Article 2(3) and (4) to the satisfaction of both Parties.

2. A Party shall not be required to protect as a geographical indication a name that conflicts with the name of a plant variety or an animal breed and as a result is likely to mislead consumers as to the true origin of the product.

Article 4

Scope of protection of geographical indications

1. The geographical indications listed in Annex II, including those added pursuant to Article 3, shall be protected against:

(a) any direct or indirect commercial use of a protected name:

(i) for comparable products not compliant with the product specification of the protected name, or

(ii) in so far as such use exploits the reputation of a geographical indication;

(b) any misuse, imitation or evocation, even if the true origin of the product is indicated or if the protected name is translated, transcribed, transliterated or accompanied by an expression such as "style", "type", "method", "as produced in", "imitation", "flavour", "like" or similar;

(c) any other false or misleading indication as to the provenance, origin, nature or essential qualities of the product, on the inner or outer packaging, advertising material or documents relating to the product concerned, and the packing of the product in a container liable to convey a false impression as to its origin;

(d) any other practice liable to mislead the consumer as to the true origin of the product.

2. Protected geographical indications shall not become generic in the territories of the Parties.

3. If geographical indications are wholly or partially homonymous, protection shall be granted to each indication provided that it has been used in good faith and with due regard for local and traditional usage and the actual risk of confusion. The Parties shall mutually decide the practical conditions of use under which the homonymous geographical indications will be differentiated from each other, taking into account the need to ensure equitable treatment of the producers concerned and that consumers are not misled. A homonymous name which misleads the consumer into believing that products come from another territory shall not be registered even if the name is accurate as far as the actual territory, region or place of origin of the product in question is concerned.

4. Where a Party, in the context of negotiations with a third country, proposes to protect a geographical indication of that third country, and the name is homonymous with a geographical indication of the other Party, the latter shall be informed and be given the opportunity to comment before the name is protected.

5. Nothing in this Agreement shall oblige a Party to protect a geographical indication of the other Party which is not or ceases to be protected in its country of origin. The Parties shall notify each other if a geographical indication ceases to be protected in its country of origin. Such notification shall take place in accordance with Article 10(3).

6. Nothing in this Agreement shall prejudice the right of any person to use, in the course of trade, that person's name or the name of that person's predecessor in business, except where such name is used in such a manner as to mislead the consumers.

Article 5

Right of use of geographical indications

1. A name protected under this Agreement may be used by any operator marketing agricultural products and foodstuffs conforming to the corresponding specification.

2. Once a geographical indication is protected under this Agreement, the use of such protected name shall not be subject to any registration of users or further charges.

Article 6

Relationship with trademarks

1. The Parties shall refuse to register or shall invalidate, *ex officio* or at the request of any interested party in conformity with the legislation of each Party, a trademark that corresponds to any of the situations referred to in Article 4(1) in relation to a protected geographical indication for like products, provided the application to register the trademark has been submitted after the date of application for registration of the geographical indication in the territory concerned.

2. For geographical indications referred to in Article 2, the date of application for registration shall be the date of entry into force of this Agreement.

3. For geographical indications referred to in Article 3, the date of application for registration shall be the date of the transmission of a request to the other Party to protect a geographical indication.

4. The Parties shall have no obligation to protect a geographical indication pursuant to Article 3 where, in the light of a reputed or well-known trademark, protection is liable to mislead consumers as to the true identity of the product.

5. Without prejudice to paragraph 4, the Parties shall protect geographical indications also where a prior trademark exists. A prior trademark shall mean a trademark the use of which corresponds to one of the situations referred to in Article 4(1), which has been applied for, registered or established by use, if that possibility is provided for by the legislation concerned, in good faith, in the territory of one of the Parties before the date on which the application for protection of the geographical indication is submitted by the other Party under this Agreement. Such trademark may continue to be used and renewed notwithstanding the protection of the geographical indication, provided that no grounds for the trademark's invalidity or revocation exist in the legislation on trademarks of the Parties.

Article 7

Enforcement of the protection

The Parties shall enforce the protection provided for in Articles 4 to 6 by appropriate action by their authorities in order to prevent and, where appropriate, stop any unlawful use of the protected geographical indications. They shall also enforce such protection at the request of an interested party.

Article 8

General rules

1. The import, export and marketing of any product referred to in Articles 2 and 3 shall be conducted in compliance with the laws and regulations applying in the territory of the Party where the products are placed on the market.

2. Any matter arising from product specifications of registered geographical indications shall be dealt with in the Joint Committee established pursuant to Article 10.

3. The registration of geographical indications protected under this Agreement may only be cancelled by the Party in which the product originates.

4. A product specification referred to in this Agreement shall be that approved, including any amendments also approved, by the authorities of the Party in the territory of which the product originates.

Article 9

Cooperation and Transparency

1. The Parties shall, either directly or through the Joint Committee established pursuant to Article 10, maintain contact on all matters related to the implementation and functioning of this Agreement. In particular, a Party may request from the other Party information relating to product specifications and their modification, and contact points for control provisions.

2. Each Party may make publicly available the product specifications or a summary thereof and contact points for control provisions corresponding to geographical indications of the other Party protected pursuant to this Agreement.

Article 10

Joint Committee

1. Both Parties agree to set up a Joint Committee consisting of representatives of the European Union and Iceland with the purpose of monitoring the development of this Agreement and of intensifying their co-operation and dialogue on geographical indications.

2. The Joint Committee shall adopt its decisions by consensus. It shall determine its own rules of procedure. It shall meet at the request of either of the Parties, alternatively in the European Union and in Iceland, at a time and a place and in a manner (which may include by videoconference) mutually determined by the Parties, but no later than 90 days after the request.

3. The Joint Committee shall also see to the proper functioning of this Agreement and may consider any matter related to its implementation and operation. In particular, it shall be responsible for:

- (a) amending Part A of Annex I, as regards the references to the law applicable in the Parties;
- (b) amending Part B of Annex I, as regards the elements for registration and control of geographical indications;
- (c) amending Annex II as regards geographical indications;
- (d) exchanging information on legislative and policy developments on geographical indications and any other matter of mutual interest in the area of geographical indications;
- (e) exchanging information on geographical indications for the purpose of considering their protection in accordance with this Agreement.

Article 11

Entry into force

1. This Agreement shall be ratified or approved by the Parties in accordance with their internal procedures.

2. Subject to paragraph 3, this Agreement shall enter into force on the first day of the first month following the date on which the Parties have notified each other that the procedures referred to in paragraph 1 have been completed.

3. If this date is before the date of the entry into force of the Agreement in the form of an Exchange of Letters between the European Union and Iceland concerning additional trade preferences in agricultural products reached on the basis of Article 19 of the Agreement on

Efni: Frumvarp, breyting á tollalögum (upprunatengdir ostar og móðurmjólk), 581. mál.

Tilv. 201805-0010

Frumvarp til laga um breytingu á tollalögum nr. 88/2005, með síðari breytingum (upprunatengdir ostar, móðurmjólk), 581. mál.

Bændasamtök Íslands fengu frumvarpsdrögin send með tölvubréfi frá nefndasviði alþingis 11. maí sl. og var frestur veittur til 23. maí. Bændasamtökin hafa farið yfir frumvarpið og gera eftirfarandi athugasemdir.

Engar athugasemdir eru gerðar við niðurfellingu tolla af móðurmjólk fyrir hvítvoðunga, sbr. 2. gr. frumvarpsins.

Hvað varðar 1. gr. frumvarpsins þá leggjast samtökin alfarið gegn efni hennar.

Búvörusamningar voru undirritaðir 19. febrúar 2016. Þá var um leið ljóst að stjórnvöld höfðu undirritað tollasamning við ESB þann 17. september 2015. Bændur fengu búvörusamninga kynnta og greiddu í kjölfarið atkvæði um þá. 74,6% kúabænda samþykktu samning um starfsskilyrði nautgriparæktar. Jafnhliða lá tollasamningar fyrir. Með ákvæðum 1. gr. eru stjórnvöld einhliða og fordæmalaust að ganga lengra en ljóst var á þessum tíma, án þess að um það hafi verið samið og án þess að nokkuð komi í staðinn. Það er því eindregin afstaða Bændasamtakanna að þessi breyting gangi lengra en þær forsendur sem bændur höfðu við samþykkt á samningnum á sínum tíma.

Það er ljóst að Alþingi sjálft leit á afgreiðslu á tollasamningi sem hluta af afgreiðslu búvörusamninga. Hvorttveggja var afgreitt sama dag á Alþingi þann 13. september 2016, búvörusamningar með lögum nr. 102/2016 og tollasamningurinn með þingsályktun 59/145. Ef bændur hefðu haft vitneskju um að stjórnvöld hygðust afgreiða tollasamninginn með þeim hætti sem 1. gr. frumvarpsins kveður á um hefði það haft áhrif á afstöðu þeirra til búvörusamninganna og jafnvel orðið til þess að þeir hefðu ekki fengið samþykki.

Verði frumvarpið að lögum mun ákvæði 1. gr. koma í bakið á bændum og skaða traust um þau mikilvægu samskipti sem stefnumörkun í landbúnaði milli bænda og stjórnvalda hefur verið. Í þau skipti sem Alþingi hefur breytt búvörusamningum við afgreiðslu þeirra hefur það verði til

að tryggja hagfelldari niðurstöðu fyrir bændur og byggðir. Með þessari aðgerð er því þveröfugt farið. Grafið er undan þeim takmörkuðu og réttmætu leiðréttingum sem fólust að öðru leyti í samningi um starfsskilyrði nautgriparæktar.

Aðferðin sem kveðið er á um í 1. gr. frumvarpsins er einhliða og færir Íslandi ekki samhliða sambærilegar heimildir. Það eitt er einhliða árás á íslenska mjólkurframleiðslu. Í nefndarálinni þáverandi meirihluta atvinnuveganefndar við 3. umræðu málsins (þskj. 1647, 680 mál, 145. löggjafarþing) kemur vissulega fram að nefndin hafi sammælt við ráðherra að hraða innleiðingu á ostum skv. ákvæðum 1. gr. en þar segir jafnframt: „Samhliða er því beint til ráðherra að aðgangsheimildum á innri markað Evrópusambandsins fyrir mjólkurafurðir verði einnig hraðað eins og mögulegt er enda byggjast slík ákvæði á gagnkvæmum aðgangsheimildum.“ Bændasamtök Íslands máttu því ætla að ráðuneyti landbúnaðarmála hefði frá samþykkt málsins í september 2016 leitast við að sækja sambærilegar ívilnanir fyrir íslenska mjólkurframleiðslu frá þeim tíma. En engin tilraun virðist hafa verið gerð til þess. Heldur er hér um að ræða einhliða árás á afkomu bændu, á sama tíma og verulega hefur hallað á samkeppnisstöðu landbúnaðarins vegna háa gengis krónunnar. Þarna virðist fyrst og fremst ráða hagsmunagæsla fyrir heildsala - sem til dæmis birtist í því að samtök þeirra tilkynntu fyrst allra um að frumvarp þetta væri í vændum. Það segir meira en mörg orð.

Verði 1. gr. frumvarpsins eins og það liggur fyrir samþykkt skal vakin athygli á að með sérhæfingu og hagræðingu í vinnslu mjólkur á Íslandi getur þessi breyting haft í för með sér mjög og alvarleg tíðindi fyrir Búðardal og Egilsstaði. Þar eru þau mjólkurbú sem helst vinna sérosta - sem lenda þarna í nakinni samkeppni. Bændasamtök Íslands hljóta því að spyrja, í ljósi gildis og mikilvægis mjólkurvinnslu í Búðardal, hvaða björgunaráætlun er fyrir byggð í Dalabyggð - fari svo að þessi breyting kippi fótum undan eða veiki verulega rekstur á stærsta vinnustað í Búðardal.

Að lokum benda Bændasamtök Íslands á að tímabært er að sjónamið um heilbrigða viðskiptahætti og gagnsæ og heiðarleg viðskipti verði leiðarljós. Það er óþolandi að störfum verkamanna sé ógnað með einhliða tollaniðurfellingum - án þess að tryggt sé að aðbúnaður og kjör launafólks sem vinnur þær vörur hér á landi sé sambærilegur við þá sem þau eiga að keppa við. Þá eru það meiriháttar vonbrigði að við þessar breytingar séu ekki gerðar neinar tilraunir til að setja fram reglur um að framleiðsluhættir og aðstæður, lyfjanotkun og dýravelferð séu gerðar að grundvallarforsendu þess að varan hljóti þá gríðarlegu ívilnun sem hér er verið að gera, sem engar tryggingar eru fyrir að verði skilað til neytenda. Þáverandi meirihluti atvinnuveganefndar fjallaði um þessi mál og fleiri í álinni við 2. umræðu búvörusamninganna á sínum tíma (þskj. 1591, 680 mál, 145. löggjafarþing). Ástæða er til að hvetja nefndina til að rifja upp það sem þar kemur fram.

Bændasamtökin leggjast því alfarið gegn samþykkt 1. gr. frumvarpsins, án þess að samningaviðræður við mjólkurframleiðendur hafi tryggt að sá samningur sem þeir gerðu við ríkisvaldið á sínum hafi tekið mið að þessum íþyngjandi og óvæntu kröfum. Verði málið afgreitt hlýtur atvinnuveganefnd að sjá til þess að svo verði, þannig að niðurstaðan verði sambærileg eða betri fyrir íslenska mjólkurframleiðslu og gildandi samningur kveður á um.

Efni: Umsögn um frumvarp til laga um breytingu á tollalögum (581. mál)

Vísað er til frumvarps til laga um breytingu á tollalögum, nr. 88/2005, með síðari breytingum (upprunatengdir ostar, móðurmjólk), á þingskjali 936. Einnig er vísað til bréfs Félags atvinnurekenda til atvinnuveganefndar, dags. 12. apríl síðastliðinn.

Tilfni lagasetningar hvað varðar tollkvóta fyrir upprunatengda osta er nefndarmönnum þegar kunnugt og var rakið í bréfi FA. Atvinnuvega- og nýsköpunarráðuneytið auglýsti í lok marz eftir umsóknum um nýja tollfrjálsa innflutningskvóta fyrir landbúnaðarvörur samkvæmt tvíhliða samningi Íslands og Evrópusambandsins, sem tók gildi 1. maí næstkomandi. Auglýstir voru kvótar fyrir þá átta mánuði, sem eftir voru af árinu við gildistöku samningsins, þ.e. tveir þriðju af þeim tollkvótum sem eiga að vera í boði á fyrsta gildisári samningsins. Athygli vakti hins vegar að í auglýsingu ráðuneytisins var ekki gert ráð fyrir að allur tollkvótinn fyrir svokallaða sérosta, þ.e. osta sem njóta upprunaverndar, t.d. Rochefort eða Parmesan, verði auglýstur á fyrsta gildisári samningsins.

Í framhaldi af þessu vakti FA athygli nefndarinnar á málinu og benti á að þetta gengi þvert á það sem þáverandi meirihluti atvinnuveganefndar lagði til í því skyni að liðka fyrir samþykkt búvörusamninganna á 145. löggjafarþingi, sem var að taka alla aukningu á tollkvóta fyrir sérosta inn strax við gildistöku samningsins í stað þess að aukningin kæmi inn í þrepum á fjórum árum. Jón Gunnarsson alþingismaður, þáverandi formaður nefndarinnar, kallaði þessa ráðstöfun „verulega tilslökun“ á móti hækkun á almennum tollum á osta, sem kveðið var á um í búvörusamningunum og Félag atvinnurekenda og margir fleiri gagnrýndu harðlega. Sú tollahækkun tók gildi í ársbyrjun 2017, en gildistaka tollasamningsins við ESB dróst á langinn.

Í greinargerð frumvarpsins er vitnað til nefndarálits meirihluta atvinnuveganefndar við þriðju umræðu um frumvarpið sem lögfesti búvörusamningana, en þar var algjörlega skýrt hver vilji þingsins væri: „*Meiri hlutinn hefur sammælt um það við ráðherra að hraða innleiðingu á auknum kvótum vegna innflutnings á sérostum, sbr. breytingartillögu nefndarinnar við 65. gr. B búvörulaga við 2. umræðu, þannig að hún komi öll til framkvæmda á fyrsta ári gildistíma samnings Íslands og Evrópusambandsins um viðskipti með landbúnaðarvörur.*“

Í viðræðum milli þingnefndarinnar og ráðuneytisins mun hafa orðið að niðurstöðu að ráðherra legði fram frumvarp til að vilji Alþingis mætti ná fram að ganga. Í greinargerð frumvarpsins er vakin athygli á að skýra lagaheimild þurfi til

að fella niður skatt eins og innflutningstollinn sem hér um ræðir. Með þessu frumvarpi veitir Alþingi slíka heimild.

Í greinargerðinni kemur réttilega fram að málið er almenningi til mikilla hagsbóta. Með samþykkt þess bætast 104 tonn við tollfrjálsan innflutningskvóta á sérostum á þessu ári og tugir tonna á næstu þremur árum miðað við það sem væri ef ákvæði samnings Íslands og ESB giltu óbreytt. Meirihluti atvinnuveganefndar á 145. þingi lagði til þá lagabreytingu, sem þegar hefur tekið gildi, að tollkvótum fyrir sérosta skuli úthlutað með hlutkesti en ekki útboði, þannig að á þá leggst ekki útboðsgjald. Breytingin mun þannig jafnframt stuðla að verulegri verðlækkun á ýmsum innfluttum ostum. Fyrirtæki í matvælainnflutningi hafa ennfremur byggt réttmætar væntingar á því samkomulagi sem gert var við samþykkt búvörusamninganna á sínum tíma og gert ráð fyrir því í áætlunum sínum að allur tollfrjálsi innflutningskvótinn tæki gildi á fyrsta gildisári tollasamningsins.

FA hafnar algjörlega þeim málflutningi, sem m.a. Bændasamtök Íslands hafa haft uppi í þessu máli, að neytendur skuli verða af þessum hagsbótum vegna þess að ráðherra hafi látið undir höfuð leggjast að semja við Evrópusambandið um að á móti þessari breytingu yrði gildistöku tollkvóta fyrir íslenskar mjólkurvörur á markaði ESB jafnframt hraðað. Það að þáverandi landbúnaðarráðherra hafi ekki aðhafzt í málinu gagnvart Evrópusambandinu getur ekki réttlætt að vilji þingsins um hraðari innleiðingu tollkvótans gangi ekki eftir. FA telur ástæðu til að ítreka að þvert á móti var þessari „verulegu tilslökun“ ætlað að koma á móti þeirri hækkun almennra tolla á ostum og öðrum mjólkurvörum, sem búvörusamningur Bændasamtakanna og ríkisins kvað á um.

Félag atvinnurekenda er almennt fylgjandi lækkun og afnámi tolla og fagnar því jafnframt tillögu ráðuneytisins um að móðurmjólk, sem flutt er inn til landsins til nota á Landspítalanum sé tollfrjálst. Verður heldur ekki með góðu móti séð að sá innflutningur sé í samkeppni við íslenskan landbúnað þannig nein rök séu fyrir því að leggja verndartolla á vöruna.

Af ofangreindu má vera ljóst að Félag atvinnurekenda fagnar frumvarpi þessu og leggur til að það verði samþykkt óbreytt.

Félag atvinnurekenda áskilur sér rétt til að koma frekari sjónarmiðum á framfæri á síðari stigum málsins. Þá er félagið reiðubúið að funda með nefndinni.

Efni: Umsögn um frumvarp til laga um breytingu á tollalögum (upprunatengdir ostar, móðurmjólk), 581. mál

Landssamband kúabænda vísar til frumvarps til laga um breytingu á tollalögum (upprunatengdir ostar, móðurmjólk), þingskjal 936 – 581. mál.

Samtökin gera engar athugasemdir við niðurfellingu tolla af móðurmjólk fyrir hvítvoðunga sbr. 2. gr. frumvarpsins.

Samtökin leggjast þó alfarið gegn því að 1. gr. frumvarpsins er varðar hröðun á innleiðingu á auknum kvótum vegna innflutnings sérosta verði samþykkt.

Með þingsályktun 59/145 (þingskjal 1338 – 783. mál) um staðfestingu samnings Íslands og Evrópusambandsins um viðskipti með landbúnaðarvörur heimilaði Alþingi ríkisstjórninni að staðfesta samninginn fyrir Íslands hönd. Samkvæmt þeim samningi skal heildaraukning tollkvóta fyrir sérosta, sem falla undir vörulið úr 0406 samkvæmt tollskrá í viðauka I við tollalög og eru skráðir í samræmi við reglur um vernd afurðaheita sem vísa til uppruna, landsvæðis eða hefðbundinnar sérstöðu, náð á fjórum árum.

Við 3. umræðu búvörusamninga (þskj. 1647, 680. mál, 145. löggj.þing) sammæltist meiri hluti atvinnuveganefndar þó um það við ráðherra að hraða innleiðingu á auknum kvótum vegna innflutnings á sérostum. Samhliða var því beint til ráðherra að aðgangsheimildum á innri markað Evrópusambandsins fyrir mjólkurafurðir yrði einnig hraðað eins og mögulegt er enda byggjast slík ákvæði á gagnkvæmum aðgangsheimildum.

Í kjölfar samþykktar Alþingis á búvörulögum var þó ekki ráðist í að sækja um sambærilegar heimildir fyrir Ísland og íslenska mjólkurframleiðendur og hefur það ekki enn verið gert þegar þetta frumvarp er lagt fram. Því eru ekki nokkrar forsendur til staðar fyrir samþykkt 1. gr. frumvarpsins.

Með ákvæðum 1. gr. fyrirbyggjandi frumvarps eru íslensk stjórnvöld að ganga lengra en upphaflega stóð til með fyrrgreindum samningi Íslands og Evrópusambandsins um viðskipti með landbúnaðarvörur. Er það gert án þess að hafa samhliða leitast eftir breytingu á samningnum þess efnis að flýta innleiðingu aðgangsheimilda á innri markað ESB fyrir mjólkurafurðir á mótí, líkt og kveðið er á um í álit meiri hluta atvinnuveganefndar um málið. Því er hér um einhliða aðgerð að ræða sem færir Íslandi ekki sambærilegar heimildir á mótí.

Í samningnum er gert ráð fyrir að á fjórum árum verði aukningin á tollkvóta fyrir sérosta um 45-55 tonn á ári eða alls 210 tonn og heildartollkvóti verði því 230 tonn þegar samningurinn tekur fullt gildi. Það er því ljóst að tollkvóti sérosta mun aukast verulega á hverju ári á þessum 4 árum, og verði 375% af núverandi tollkvóta á fyrsta ári þrátt fyrir að hröðun á innleiðingu aukinna tollkvóta verði ekki samþykkt. Því er ljóst að innflutningur mun aukast mjög strax á fyrsta ári án þess að 1. gr. frumvarpsins verði samþykkt.

Framleiðsla á sérostum á sér að miklum hluta stað á Egilsstöðum og í Búðardal. Í Búðardal eru mygluostar og sérostar á borð við Cheddar, Havarti og Feta-ost framleiddir og Mozarella- og Ricotta-ostar á Egilsstöðum. Heildarframleiðsla sérosta á Íslandi er um 240 tonn og nemur heildartollkvóti sérosta sem samið var um því 95% af því magni. Það er ljóst að samningurinn mun hafa mikil áhrif á þessar starfsstöðvar og sérostaframleiðslu hér á landi og nóg um að svo miklar breytingar eigi sér stað á 4 árum í stað þess að opnað verði fyrir tollkvótann í heild á fyrsta ári.

Landssamband kúabænda bendir á að sérostar þeir sem samningurinn nær til eru ekki einungis ostar á borð við Parmesan eða franskan Roquefort heldur er hér einnig um að ræða nokkuð hefðbundna brauðosta á borð við Gouda Holland og Noord-Hollandse Gouda, sem eru í beinni samkeppni við íslenska framleiðslu, en Gouda er vöruheiti algengasta brauðostsins sem framleiddur er hér á landi. Tekið skal fram að verðlagsnefnd búvara ákveður heildsöluverð á brauðosti hérlendis og því gæti reynst nokkuð snúið fyrir íslenskar afurðastöðvar að bregðast við álíka hröðun á svo aukinni samkeppni á brauðostamarkaði að öllu óbreyttu.

Að framansögðu telur Landssamband kúabænda eðlilegt að íslenskir mjólkurframleiðendur fái þann aðlögunartíma sem felst í samningi Íslands og ESB eins og samið var um. Landssamband kúabænda leggst því alfarið gegn því að 1. gr. frumvarpsins sé samþykkt.

Samtökin lýsa sig reiðubúin til að koma á fund nefndarinnar til frekari umræðu og skoðanaskipta.

Efni: Umsögn um Þingskjal 936 – 581. mál á 148. Löggjafarþingi: Frumvarp til laga um breytingu á tollalögum, nr. 88/2005, með síðari breytingum (upprunatengdir ostar, móðurmjólk).

SAM telja að með fyrstu lagagrein frumvarpsins sé lagt til að víkja hagsmunum Íslands til hliðar með því að hverfa einhliða frá ákvæðum samnings Íslands og Evrópusambandsins. SAM hvetja til þess að greinin verði ekki samþykkt.

Tollasamningur Íslands og Evrópusambandsins frá september 2015 hefur þegar verið staðfestur af Íslandi. Samkvæmt samningnum mun tollfrjáls innflutningur osta aukast um 510 tonn þegar samningurinn er að fullu kominn til framkvæmda. Sá innflutningur samsvarar um 8,3% af stærð íslensk ostamarkaðar í magni og um 10,9% í verðmætum. Samkvæmt mati á áhrifum samningsins er talið að tekjutap innlendra mjólkurvara vegna samningsins verði á bilinu 1.200 – 1.600 milljónir króna á hverju ári eftir að áhrifin koma í ljós af fullum þunga.

SAM telja nauðsynlegt að ákvæði tollasamningsins um fjögurra ára aðlögun að aukningu tollkvóta verði nýtt til að veita íslenskum bændum og mjólkuriðnaði tækifæri til að bregðast við auknum innflutningi.

Um áratugi hefur algengasti íslenski osturinn verið seldur undir vöruheitinu „Gouda“ og gamli „Brauðosturinn“ á ættir að rekja til hollenska Edam-ostsins (Heimild: Handbók um íslenska osta; Osta- og smjörsalan sf 1991). Verðlagning Gouda-osta er bundin samkvæmt ákvörðunum Verðlagsnefndar búvöru, en aðrir ostar sem undanþegnir eru ákvörðunum Verðlagsnefndar búvöru, hafa lengi gengið undir samheitinu „sérostar.“ SAM vilja benda á að meðal upprunatengdra osta í vörulið 0406 (PDO og PGI) eru bæði Gouda- og Edam-ostar (dæmi er efst á blaðsíðu 37 í samningi Íslands og ESB; sjá tengil: <https://www.stjornarradid.is/media/utanrikisraduneyti-media/media/esb/Samningur-um-tolla-a-landbunadarvorum-ESB-IS.pdf>).

Með tollasamningnum er þess vegna ekki eingöngu opnað á tollfrjálsan innflutning einstaka óvenjulega erlenda osta sem ekki eru í beinni samkeppni við íslenska ostaframleiðslu, samningurinn opnar á tollfrjálsan innflutning osta af sömu tegund og algengustu verðlagsbundnu íslensku ostarnir. SAM telja að innflutningur á tollfrjálsum osti í beinni samkeppni við verðlagbundna vöru skapi aðstæður sem bregðast verði við og þess vegna sé nauðsynlegt sé að auka innflutning í umsömdum skrefum í samræmi við tollasamning Íslands og ESB.

Efni: Umsögn um frumvarp til laga um breytingu á tollalögum (upprunatengdir ostar, móðurmjólk), 581. mál

Samtök mjólkur- og kjötvinnslufyrirtækja, SMK, fengu til umsagnar frumvarp til laga um breytingu á tollalögum, 581. mál, sem í grunninn fjallar um tvö afar ólík mál. Samtökin gera engar athugasemdir við þá tillögu að fella niður tolla af innfluttri móðurmjólk handa fyrirburum en mótmæla hinsvegar harðlega þeim hluta frumvarpsins sem snýr að auknum innflutningsheimildum á ostum.

Ljóst er að með frumvarpi þessu er verið að leggja til umtalsverða breytingu á starfsumhverfi framleiðslufyrirtækja sem starfa í ostaframleiðslu enda er verið að afnema umsaminn aðlögunarfrest í samningi Íslands við Evrópusambandið um viðskipti með landbúnaðarvörur. Í stað þess að heildaraukning á tollkvótum, sem er umtalsverð, verði náð á fjórum árum er verið að leggja til að heildaraukningin taki gildi strax. Ekkert mat hefur verið lagt á áhrif þessara breytinga á íslensk framleiðslufyrirtæki.

SMK, lögðust á sínum tíma gegn því að samningur Íslands og Evrópusambandsins um viðskipti með landbúnaðarvörur verði staðfestur á þeirri forsendu að samningurinn myndi hafa veruleg neikvæð áhrif á framleiðslu og vinnslu mjólkur- og kjötafurða. Sú afstaða hefur ekki breyst. Augljóst er að stórauðinn innflutningur á ostum, hvort sem um er að ræða upprunatengda osta eða aðra, hefur áhrif á sölu innlendra osta og þar með samkeppnishæfni íslenskra framleiðslufyrirtækja. Í samningi Íslands við ESB taka auknir tollkvótar gildi í áföngum á fjórum árum til að gefa íslenskum framleiðendum tíma til aðlögunar. Verði þetta frumvarp óbreytt að lögum er þeirri aðlögun kippt út fyrirvaralaust með tilheyrandi skerðingu á samkeppnishæfni. Því mótmæla SMK. Ekkert samráð var haft við hagsmunaaðila við gerð upprunalega samningsins, né heldur við samningu þessa frumvarps. SMK átelja þau vinnubrögð stjórnvalda að ætla einhliða að ganga lengra en samningur við ESB gerir ráð fyrir, án nokkurs samráðs við þá sem eiga hagsmuna að gæta.

SMK leggja því til að 1. gr. frumvarpsins verði felld niður.

Jafnframt gera SMK þá kröfu að tollkvóti fyrir upprunatengda osta verði boðinn upp á sama hátt og tollkvótar fyrir aðrar landbúnaðarvörur, þ.e.a.s. ekki sjaldnar en tvisvar á ári.

Efni: Umsögn um frumvarp til laga um breytingu á tollalögum, 581. mál

SVÞ – Samtök verslunar og þjónustu vísa til tölvupósts atvinnuveganefndar Alþingis, dags. 11. maí sl., þar sem óskað er umsagnar samtakanna um frumvarp til laga um breytingu á tollalögum, nr. 88/2005, með síðari breytingum, 581. mál. SVÞ hafa kynnt sér fyrirliggjandi frumvarp og óska þess að koma eftirfarandi athugasemdum á framfæri hvað það varðar.

SVÞ vísa til almennra athugasemda við fyrirliggjandi frumvarp sem og umræðna á fundi samtakanna og annarra hagsmunaaðila með atvinnuveganefnd 20. apríl sl. þar sem mál þetta var til umræðu. Eins og ráða má af fyrirliggjandi upplýsingum þá var skýr vilji meirihluta atvinnuveganefndar á 145. löggjafarþingi til að hraða innleiðingu á auknum kvótum vegna innflutnings á sérostum (upprunatengdum ostum) þannig að sú aukning kæmi til framkvæmda á fyrsta ári gildistíma samnings Íslands og Evrópusambandsins um viðskipti með landbúnaðarvörur, m.a. með það a markmiði að veita innflutningsaðilum tækifæri til þess að auka úrval osta hér á landi innlendum neytendum til hagsbóta.

Óþarfi er að rekja hér frekar ástæðu þess að mál þetta náði ekki fram að ganga á 145. löggjafarþingi en ítreka SVÞ mikilvægi þess að fyrirliggjandi tillaga verði nú samþykkt og komi til framkvæmda sem fyrst. Í ljósi þessa ítreka SVÞ stuðning við fyrirliggjandi frumvarp og efni þess.

Að öðru leyti gera SVÞ ekki frekari athugasemdir við fyrirliggjandi frumvarp. SVÞ áskilja sér þó rétt til að koma frekari athugasemdum á framfæri á síðari stigum og lýsa sig um leið reiðubúin til að funda um efnið sé þess óskað af hálfu nefndarinnar.

**Efni: Breyting á tollalögum, nr. 88/2005, með síðari breytingum (upprunatengdir ostar, móðurmjólk).
581. mál.**

Viðskiptaráð Íslands þakkar fyrir tækifærið til að veita málinu umsögn. Með lagafrumvarpi þessu stendur til að hraða innleiðingu á auknum kvótum vegna innflutnings á sérostum þannig að hún komi til framkvæmda á fyrsta ári gildistíma samnings Íslands og Evrópusambandsins um viðskipti með landbúnaðarvörur. Þá er einnig kveðið á um að tollar á innflutta móðurmjólk verði felldir niður.

Viðskiptaráð styður frumvarpið heilshugar, en vill þó nýta tækifærið til að ítreka fyrri skrif ráðsins er varða tollvernd¹. Að mati Viðskiptaráðs eiga tollar í flestum, ef ekki öllum, tilvikum ekki rétt á sér. Aukning tollkvóta er vissulega skref í rétta átt en að mati ráðsins væri æskilegast að afnema tolla að fullu á allar vörutegundir, enda myndi sú breyting skila mestum ávinningi fyrir bæði neytendur og íslenskt atvinnulíf. Mikil tollvernd takmarkar vöruúrval, ásamt því að innlendir framleiðendur búa við lítið sem ekkert aðhald frá erlendum samkeppnisaðilum. Slík samkeppni myndi hvetja til meiri hagkvæmni í rekstri innlendra fyrirtækja og á endanum auka velferð neytenda.

Gott dæmi um þetta er niðurfelling tolla á gúrkur, tómata og papriku árið 2002. Við afnámið lækkaði útsöluverð á einstökum tegundum um allt að 45%². Í framhaldinu jókst framleiðni í grænmetisframleiðslu meira en í öðrum greinum landbúnaðarins, og fleiri tegundir grænmetis eru framleiddar hérlandis en áður. Nýsköpun og fjölbreytni í greininni hefur þar af leiðandi aukist, öllum aðilum til hagsbóta. Aukin framleiðni hefur svo aftur skilað sér í hærri launum í grænmetisframleiðslu heldur en í öðrum landbúnaði³. Þá mætti einnig líta til ávinnings neytenda er tollar og vörugjöld á vörur að undanskildum búvörum voru afnumdir árin 2015-2016⁴.

Vörutegundir sem njóta tollverndar eru margar dýrari hérlandis á meðan vörutegundir án slíkrar verndar eru ódýrari

¹ Verð á fiski er til dæmis 15% lægra á Íslandi en annars staðar á meðan verð á kjúklingi er 59% hærra. Verðsamanburður e árinu 2012 fyrir allar vörutegundir nema egg, en verðsamanburður á þeim er frá mars 2015

Heimildir: Samráðsvettvangur um aukna hagsæld á Íslandi, Hagstofa Íslands, Numbeo, Viðskiptaráð Íslands

Verð á vörutegundum sem ekki njóta tollverndar er lægra en í öðrum ríkjum, en þær vörutegundir sem njóta tollverndar eru allt að 59% dýrari hérlandis (sjá mynd). Tollvernd fyrir landbúnað er mun meiri hérlandis en í nágrannalöndum okkar, og telur Viðskiptaráð að þessu þurfi að breyta. Ráðið hefur í því samhengi bent á skilvirkari leiðir til að styðja við landbúnað⁵. Neytendur eiga rétt á að kerfið dragi ekki úr aðengi þeirra að fjölbreyttum matvælum á hagstæðu verði.

Viðskiptaráð leggur til að frumvarpið nái fram að ganga en hvetur jafnframt stjórnvöld til að afnema tolla að fullu á allar vörutegundir.
