Subject: Circumcision Ban?

To Whom It May Concern:

I find that in this day and age when you know that Circumcisions are practiced by Jews and Muslims and others.....that you would try and ban this religious practice. If you were to proceed with a ban on this religious practice.....know that you are attacking the rights of over a billion people on a global basis and hurting the religious rights of some of your very own citizens.

Time for you to consider more important things other than focusing on this. Do not ban circumcision.

Thank you
