Efni: Against Circumcision of Children - Israeli citizen support. :)

Hello,

My name is Tal, I've been living my whole life in Israel, my parents come from a strong Jewish background, but I support your bill against circumcision of children.

I believe a helpless baby shouldn't get any kind of surgery unless it is meant to save his life. I believe a tradition shouldn't be forced on a person and one should choose it for themselves. Thank you for being rational and caring for our next generation of children.

You have my full support.

Have a good day!

Tal.
