

January 13, 2022

For FEIF, the International Federation of Icelandic Horse Associations, the welfare of the horse, the respect and responsibility for a living creature must be paramount and must never be subject to competitive or commercial influences.

As the international Federation of Icelandic Horse Associations worldwide, FEIF condemns the practices and the mistreatment of mares on blood farms. We welcome a stop of the import and domestic production of PMSG and support any action taken by the Icelandic authorities to stop the procedure in Iceland completely.

On behalf of the Board of FEIF

Gunnar Sturluson,
FEIF President

FEIF PRESIDENT
