

Hello,

My name is Eliza Meldraja, I come from Latvian and am living in France. I have always wanted to come and visit Iceland but we have PROMISED ourselves (me and my friends), that we will not do it as long as this fight against the UNNECESSARY whaling will be won by people who still has a common sense and a heart.

So me and everyone around me, we are supporting the bill!

This killing is so old school and SO unnecessary.

- It is not possible to maintain animal welfare and kill large whales.
- Whales are important to the marine ecosystem.
- Whaling is not part of the Icelandic cultural heritage.
- Whaling in Iceland is now a vanity project for a single wealthy man !!!
- The majority of the Icelandic public do not support whaling continuing.
- Whaling has a negative impact on the economy.

And these are just some. Not mentioning empathy, the larger view to the future and our children, grandchildren lives, which will be impacted.

I stand with nature, I stand for these majestic and beautiful animals in the times when they don't have a voice!

And people like me will never loose hope, strength and love to fight against the mass consumer era.

The world is changing, and for good. So the old ways has to die. And the new ones has to come in place.

The Consumer Era is over!

Eliza Meldraja
