

Andrew Ingham.20/10/2023

I support the bill to end whaling in Iceland because whaling has no place in the modern world, it's not cruelty free and these magnificent sentient animals who are gentle and very forgiving are suffering immensely from being harpooned by whaling ships and it can take up to 3 hours for the poor whale to die in excruciating pain. Also Whales are immensely important to the health of the world oceans as their bodily excretions can help fertilize the ocean helping phytoplankton bloom thus helping lock up Greenhouse gas emissions and helping combat climate change also fish populations also seem to better when there are more whales in the ocean as well, whales are highly social and highly intelligent sentient beings that feel fear, pain, they can grieve for the loss of family member just like elephants can and if you want to save the world from the climate crisis then please vote in favour of passing this bill that would end whaling in Iceland for good and many Icelandic people are in favour of supporting this bill as it doesn't help the Icelandic economy nor does it help the Icelandic people

Thank you
